I am a graduate in Information Systems with a strong interest in Artificial Intelligence programming. My academic journey and personal projects have fueled my passion for exploring intelligent systems and their applications in solving real-world problems.

In addition to my enthusiasm for AI, I enjoy working on website development, particularly in backend development, where I focus on creating efficient and scalable systems. My attention to detail extends to data administration and management, areas where I strive for accuracy and organization while continuously improving my skills.

I am eager to learn and grow, seeking opportunities to contribute my knowledge and expand my expertise in the dynamic fields of technology and innovation.

EDUCATION

2021 - 2025

Universitas Airlangga

Bachelor of Information Systems

(GPA: 3.44 / 4.00)

2018 - 2021

SMAN 2 Surabaya

Science

LANGUAGE

English

ELPT Score : 555 (Universitas Airlangga)

TOEIC Score : 840

Bahasa Indonesia

INTEREST

Artificial Intelligence (AI) Programming, Machine Learning, Website Development (Backend), Data Administration & Management, Technology & Innovation

SKILL

Soft Skills

Leadership, Attention to Detail, Problem-Solving, Team Collaboration, Administration

Technical Skills

Microsoft Office

Proficient in using Word for documentation, Excel for data analysis and administration, and PowerPoint to create informative and interesting presentations.

Java

I understand object-based programming (OOP) and can build modular java programs.

Website Development

Has experience in Django for Python-based backend development, Laravel for building PHP-based applications, and React for developing interactive and responsive frontends.

INTERNSHIP

Regional Solution & Operation II (Regional III) • Telkom Indonesia

September 2024 - October 2024

This role was previously under Regional, Solution, Delivery & Assurance (Regional V) before the company's transformation, which expanded the regional scope into Regional III to cover a broader area.

Back End Developer • Telkom Indonesia

July 2024 - September 2024

As a Backend Developer for the "Growth" website, I am responsible for designing, developing, and maintaining the database architecture of the platform. The website serves as an analytical tool to monitor and evaluate project contract values for PT Telkom Indonesia.

Regional, Solution, Delivery & Assurance (Regional V) • Telkom Indonesia

July 2024 - September 2024

As an Invoicing Admin for project contracts at Telkom Indonesia, I responsible for ensuring smooth invoicing processes in line with contract documents. I work closely with internal teams to manage financial administration, ensure document completeness, and support timely payments as per the agreed schedule.
